Hiring Manager

Heathland

Utrecht, Netherlands

Re: Application for Process Engineer Position

Dear Hiring Manager,

I am writing to apply for the **Process Engineer** position at **Heathland**. Your focus on plastic recycling and creating value from post-industrial and post-consumer waste aligns perfectly with my experience and passion for the circular economy. I am eager to contribute my expertise in recycling processes to your operations in Utrecht.

Recycling & Compounding Expertise

During my 6 years at **MAAG Group**, I specialized in optimizing recycling processes for PET and HDPE. I successfully increased throughput by outstanding in recycling applications while maintaining high pellet quality. I understand the unique challenges of processing variable waste streams, including filtration, degassing, and pelletizing, and I know how to optimize equipment to handle them efficiently.

Process Optimization

At **Autoneum**, I utilize **Lean Six Sigma** methodologies to drive continuous improvement. I am experienced in analyzing process data to identify bottlenecks and implement cost-saving measures. I am confident I can apply these skills to maximize the efficiency and quality of Heathland's recycling lines.

Relocation to Utrecht

I am actively relocating to the **Utrecht area** and am committed to building my future there.

As a fluent English speaker (and native German), I am ready to collaborate effectively with your team and partners.

I would welcome the opportunity to discuss how my recycling expertise can support Heathland's mission to close the loop on plastics.

Sincerely,

Jonas Glawion
