Re: Application for [Job Title] Position

Dear [Hiring Manager Name],

I am writing to express my enthusiastic interest in the **[Job Title]** position at **[Company Name]**. With over 8 years of experience as a Process Engineer in the plastics industry, specializing in extrusion, compounding, and polyurethane systems, I am confident that my technical expertise aligns perfectly with your operations.

During my 6 years at **MAAG Group**, I developed a deep understanding of thermoplastic processing. I successfully commissioned over 12 pelletizing systems globally and optimized recycling processes for PET and HDPE, increasing throughput by outstanding. My background in extrusion and compounding ensures I can immediately contribute to your production efficiency and troubleshooting efforts.

Currently, at **Autoneum**, I focus on polyurethane foam systems for the automotive sector. I have successfully implemented Lean Six Sigma methodologies to reduce costs and improve first-pass yields. Furthermore, I am passionate about Industry 4.0; I have self-taught Python to develop automated data analysis tools and AI-driven quality prediction models. I am eager to bring this digital mindset to [Company Name] to further enhance your process control.

I am actively relocating to **[Region]** and am fully committed to building my future there. As a native German speaker fluent in English and learning Spanish, I thrive in international environments. My hands-on background as a skilled tradesman has instilled in me a strong work ethic and a practical approach to problem-solving.

I would welcome the opportunity to discuss how my experience in process optimization and my passion for plastics technology can contribute to the continued success of [Company Name]. Thank you for considering my application.

Sincerely,

Jonas Glawion
